DETAILED ACTION

Allowable Subject Matter

1. Claims 3, 5-13, and 16-23 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 3, 5, 11, 16, 17, and 22 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claims 3 and 16, "wherein the microcomputer intentionally transmits to the monitoring circuit an answer containing a wrong operation result at a predetermined frequency to thereby check the function of the monitoring circuit."

As in claims 5 and 17, "wherein the monitoring circuit includes a circuit for judging whether the microcomputer is restored to a normal state after having once judged that the microcomputer is an abnormal state."

As in claims 11 and 22, "wherein when the monitoring circuit judges the microcomputer to be in an abnormal state, the monitoring circuit resets the microcomputer to restart the microcomputer."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
